EATONS
is a trusted
global brand in
premium
disposable
tableware and
food packaging
known for its
quality and
innovation!

Our Company

The **BD Goyal Group** of Companies stands as a distinguished business conglomerate, thriving under the visionary leadership of its Chairman, Shri Kailash Chand Goyal and Managing Director Shri Abhishek Goyal. Since its inception in 2001, the Group has earned its reputation as one of the most trusted and leading providers of disposable tableware and innovative food packaging solutions.

Over the years, the Group has diversified operations into multiple divisions, showcasing remarkable growth and innovation:

Abhishek Goyal
Managing Director

Sustainable Tableware

Pioneering eco-friendly disposable tableware crafted from sugarcane pulp also known as Bagasse

Premium Aluminium Solutions

Supplying high-quality aluminium foil rolls and containers for versatile applications

Innovative Packaging

Producing PP & HIPS cups and containers designed to meet diverse packaging needs

Durable Food Storage

Manufacturing robust, reusable plastic food containers through advanced injection moulding techniques

Industrial Excellence

Delivering EPE rolls and sheets, essential for industrial packaging and mattress applications

Eco-Friendly Disposable Tableware made from Sugarcane Pulp

As the global focus shifts toward sustainability, we are excited to announce our latest innovation in the disposable tableware industry: eco-friendly products crafted from sugarcane pulp. As a pioneering manufacturer based out of Eastern India, we are dedicated to positively impacting the environment with our high-quality, sustainable alternatives to traditional plastic tableware.

Our Commitment to Mother Earth

Our cutting-edge manufacturing facility is a game changer in India, emphasizing our commitment to environmental stewardship. We take pride in offering a diverse range of disposable items, including plates, compartment plates, bowls, and thalis, all designed with exceptional durability and functionality in mind. Each product reflects our dedication to reducing our ecological footprint while maintaining quality and convenience.

Durable & Extra Strong

Engineered for toughness, our bagasse tableware provides exceptional strength to handle various dining needs

Biodegradable & Compostable

Made from natural materials, our tableware is designed to minimize environmental impact

Perfect for Picnics, Parties & Everyday Use

Versatile for any gathering, our bagasse tableware enhances your dining experience, whether it's a casual picnic, a festive event, or daily meals

Microwave Safe

Conveniently heat your food with confidence - our products withstand microwave use.

Hassle-Free Dining Experience

Enjoy your meals without the fuss - our tableware simplifies clean-up and enhances your dining enjoyment.

Oil and Grease Resistant

Enjoy your meals without worrying about spills or cuts - our robust design ensures reliability

Stackable Design

Optimize your storage space with our easy-to-stack tableware, keeping your kitchen organized

Freezer Safe

Perfect for storage, our tableware can be safely utilized in the freezer for extended food preservation

Disposable Packaging solution

Exceptional Polypropylene (PP),
HIPs Disposable Solutions

We manufacture PP Glasses, Containers, and Printed Cups for Ice Cream and Yogurt. Crafted in eco-conscious environments, our products not only cater to market demands but also prioritize sustainability and safety for consumers.

Premium Material

Engineered from high-quality Polypropylene, ensuring unmatched durability and shatter resistance

Stringent Hygiene Standards

Manufactured under rigorous hygiene protocols, guaranteeing food safety and quality excellence

Eco-Conscious Production

Our sustainable manufacturing practices contribute positively to the environment

Diverse Selection

An extensive variety of styles and sizes tailored for all your serving needs

Lightweight & Cost-Effective

Simplified handling reduces shipping costs, providing convenience for all stakeholders.

Resilient & Impact Resistant

Designed to maintain integrity under pressure - truly uncrushable.

Single-Use Hygiene

A sanitary and economical alternative to traditional glassware, eliminating washing requirements.

Striking Aesthetic

The clear PP material enhances product visibility, captivating your customers.

Efficient Packaging Solutions

Streamlined design enables easy storage and dispensing for busy environments.

Quality Printed Packaging solution

essel®

Expanded Polyethylene (EPE)

Essel EPE, the cellular expanded polyethylene material (EPE) is a non-cross linked and extruded product. It is extensively used by different industries for versatile applications, namely in packaging, building / civil construction, automotive parts, sports goods, protective cover, air conditioning, insulation, marine, mattress, comfort padding, decoration, etc.

Essel Expanded Polyethylene is manufactured in a state of the art plant in thickness ranging from 2 mm-110mm and the same is available in standard forms such as in rolls (upto 20mm) and sheets/planks (from 15-110mm), slitted and perforated rolls, die cut and non standard cut sheets, adhesive coated blocks, ready to use fabricated fitments, buffers, corner pads, encapsulation, blocks, ribs, etc. of specific sizes / dimensions / shapes / structure.

- 
- Highly resilient
 - Flexible and soft
 - Lightweight
 - Tough and Durable
 - Easy to fabricate
 - Low thermal conductivity
 - Good insulation properties
 - Water and moisture resistant
 - Excellent sound deadener
 - Excellent buoyancy
 - Non toxic and non corrosive
 - Resistant to fungi and insects
 - Non affected by hydro carbons
 - Resistant to creep and flex.

Excellent cushioning and shock absorbing characteristics Excellent abrasion resistance
